- **Gujarati** : Read , write and speak (mother tongue)
- **English**: Read , write and speak
- **Hindi**: Read , write and speak

PROFILE

Motivated and enthusiastic IT professional seeking an entry to mid-level position where I can apply my technical knowledge and problem-solving skills. Eager to join a dynamic company that encourages continuous skill development and offers opportunities to contribute towards achieving organizational goals. Committed to learning, adapting, and growing within the IT field.

EXPERIENCE

○ Android Developer | 3.3 Year

Hyperlink Infosystem | Jan 2022 to Present

Developed mobile applications using the MVVM architecture for Android platforms. Integrated various types of APIs to enhance functionality and ensure seamless communication between the app and backend services. Focused on creating efficient, scalable, and maintainable code while improving user experience.

- Utilized Dagger to streamline and simplify code by managing dependencies efficiently, resulting in cleaner and more maintainable architecture.
- Wrote clean, well-structured, and bug-free code, adhering to best practices for maintainability and reliability.
- Implemented API calls using Retrofit, ensuring efficient and reliable communication between the application and external services.

EDUCATION

• MASTER OF COMPUTER APPLICATION (MCA)

Indus University | 2020 - 2022

CGPA : 9.75

• BACHELOR OF COMPUTER APPLICATION (BCA)

Sanskar institute | 2017 - 2020

CGPA : 7.07
